Additional Printing Services

We are, allegedly, the friendliest and most helpful Print Room in Bracknell! If you don't believe me, read some of our customer reviews.

The company was set up over 20 years ago by Managing Director, Lisa Peters, and a business partner, who has since retired. We continually invest in digital presses and finishing equipment and keep up to date with industry developments.

Providing great print is a given – it's the help, advice and support that we offer our customers that really makes us different.

We want to ensure that our clients get the most from their printed material and create the right impression with their audience, within the budget they have set.

We love to have clients come and see us, check out our paper stocks and see samples of other items we have produced.

We offer a proof service, for most items, so that clients can have one final check before committing to the full print run.

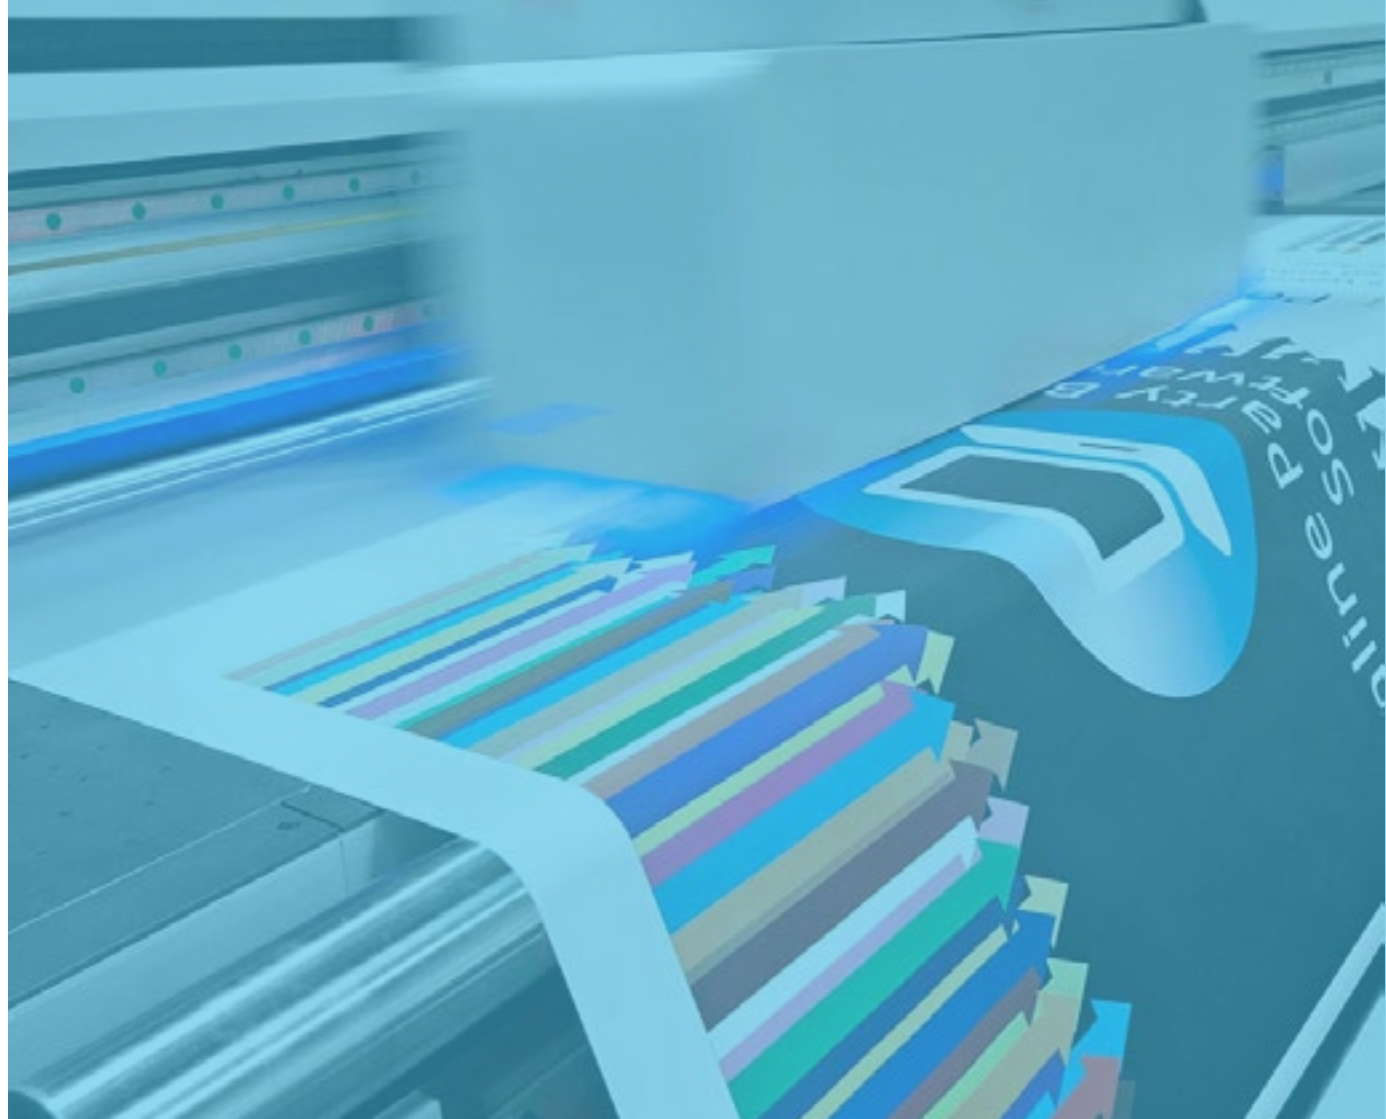

Our standard turnaround time is 2 working days, although we can print the same day if needed, and we don't have a minimum print quantity, although we do have a minimum order value of £10.

If you want to know anything more about us feel free to call us on **01344 489055**
